

# National Cancer Advisory Board

## Subcommittee on Activities & Agenda

The purpose of this subcommittee is to assist the Director, NCI, in establishing priorities of subjects to present at Board meetings in order to maximize for Board members the informational value of these meetings. This subcommittee is charged with the continuous review of issues raised in various sectors of NCI, especially those requiring periodic examination in the context of planned presentations or discussions at Board meetings. The subcommittee will discuss and be responsive to issues raised by the Biomedical Research Community, both clinical and basic science, Congress and the public at large. In general, the Director, NCI, and his senior staff will generate material for discussion by the subcommittee in support of agenda items.
