Meet the Women Trying to Avoid a Spending Train Wreck in Congress

For the first time, the leaders of the House and Senate Appropriations Committees are all women, as is the top White House budget official. Can they avert a fiscal disaster? They're determined to try.

The debt ceiling game of chicken begins

Here's what history tells us about what could come next — and what's motivating each side

CONGRESS

Meet the 'tough as nails' Texan trying to keep the GOP in line on spending

For the first time, Congress' powerful Appropriations Committees are led by four women. But one of them, Rep. Kay Granger, has the toughest job of all.

Any proposal to reduce military funding in that process is a non-starter for Granger. "I don't support cutting defense," she said. "That's the one that I'm really, really hard-core on."

- Congress has passed 20 debt limit increases since 2001
- Quite common in recent history, and not unique to a particular party (e.g., 18 times during Reagan Administration, 8 during Clinton Administration)
- **Leverage for deficit reduction deals**, other legislative goals

The New York Times

Biden and McCarthy Discuss Debt Limit as Financial Crisis Looms

The meeting, which did not appear to yield a breakthrough, highlighted the differences between the White House and the Republicans who now control the House.

C.B.O. Warns of Possible Default Between July and September

The nonpartisan budget office also said that if tax receipts fall short of projections, and Congress fails to act on the debt limit, the U.S. could run out of cash before July.

Current Appropriations and Next Steps

	FY 2022 Enacted	FY 2023 Enacted	FY 2024
NCI	\$6.91 B (+\$353 M over FY21) \$194M for Moonshot	\$7.3 B (+ \$386 M base) \$216M for Moonshot	President's Budget Request to be released March 9
NIH	\$45 B (+\$2.25 B over FY21)	\$47.5 B (+\$2.5 B)	
ARPA-H	\$1.0 B (Year 1)	\$1.5 B (in HHS OS w/ transfer authority, +\$0.5 B)	

HOW NCI RECEIVES ITS FUNDING

NCI receives its funding, or appropriation, from Congress as part of the overall federal budget process.

★ FY24
NCI
PJB

STEP 1

The White House Office of Management & Budget (OMB) coordinates with federal agencies to formulate the President's Budget, which covers all federal agencies, including the National Cancer Institute (NCI) and National Institutes of Health (NIH), and reflects the President's priorities. The President submits the budget to Congress, which must pass appropriations legislation that funds federal agencies.

STEP 2

The Congressional appropriations committees consider the President's Budget as they prepare appropriations legislation for the next fiscal year.

STEP 3

The appropriations committees finalize their legislative proposals, and the House and Senate consider the proposed legislation. Once passed and reconciled into a unified bill, Congress sends the legislation to the President.

STEP 4

The President signs the appropriations bill into law, making funds available to executive agencies, including NCI and NIH.

★ NCI Professional Judgment Authority

The National Cancer Act of 1971 gives the NCI Director special authority to submit an annual professional judgment budget directly to the President for review and delivery to Congress. This budget reflects NCI cancer research priorities and identifies areas of potential investment in cancer research.
