Clinical Trials and Translational Research Advisory Committee

CTAC Working Groups - 2018

NCI Translational Research Strategy Working Group (*proposed*)

Purpose: Provide broad advice to CTAC, NCAB, BSA and NCI leadership on enhancing and broadening the overall translational research portfolio.

The working group will survey scientific horizons broadly to:

- Help identify the most provocative and impactful translational research questions;
- Examine and identify the most important opportunities for application of new technologies to translational research;
- Identify translational research knowledge gaps.

Members: CTAC, NCAB, and BSA members and *ad hoc* experts as needed.
