

NCI Legislative Update

Clinical Trials & Translational Research Advisory Committee

M.K. Holohan, J.D.

Office of Government and Congressional Relations

Today's Talk

- FY24 Appropriations: Status, Timelines
- FY25 Appropriations Process Begins
- 118th Congress: Retirements & Congressional Calendar

HOW NCI RECEIVES ITS FUNDING

STEP 1

The White House Office of Management & Budget (OMB) coordinates with federal agencies to formulate the President's Budget, which covers all federal agencies, including the National Cancer Institute (NCI) and National Institutes of Health (NIH), and reflects the President's priorities. The President submits the budget to Congress, which must pass appropriations legislation that funds federal agencies.

STEP 2

The Congressional appropriations committees consider the President's Budget as they prepare appropriations legislation for the next fiscal year.

We are (still) here

STEP 3

The appropriations committees finalize their legislative proposals, and the House and Senate consider the proposed legislation. Once passed and reconciled into a unified bill, Congress sends the legislation to the President.

STEP 4

The President signs the appropriations bill into law, making funds available to executive agencies, including NCI and NIH.

Some agencies are here

NCI Professional Judgment Authority

The National Cancer Act of 1971 gives the NCI Director special authority to submit an annual professional judgment budget directly to the President for review and delivery to Congress. This budget reflects NCI cancer research priorities and identifies areas of potential investment in cancer research.

The good news:

On Saturday March 9, President Biden signed half of the FY24 appropriations bills into law

The bad news:

We are in the other half

FY24 Appropriations Bills Signed Into Law on 3/9
