CTAC Meeting

July 2015 CTAC Meeting

- Proposed topic: Review of progress to date and future directions for NCI's clinical trials enterprise
- Rationale:
 - A decade has elapsed since the 2005 Clinical Trials Working Group (CTWG) report
 - Substantial progress has been achieved under CTAC's guidance
 - CTAC provides an ideal venue to chart a future path for the NCI clinical trials enterprise
 - Analysis of the progress to date
 - Recommend future directions
 - Provides excellent opportunity to further define CTAC's role in guiding the future of the enterprise

July 2015 CTAC Meeting

- Main CTAC Meeting
 - CTWG Summary Vision
 - Highlights of progress for the overarching goals – Coordination, Prioritization, Scientific Quality, Standardization and Operational Efficiency
- Breakout sessions – small working groups for each goal
 - Future action, if any, on CTWG recommendations not yet fully implemented
 - Potential future directions relative to the goal
 - CTAC's role in realizing additional implementation and future directions
- Working Groups continue discussions with goal of making recommendations at future (?November) CTAC Meeting
