

NCI Clinical Trials and Translational Research Advisory Committee
***Ad hoc* Quantitative Imaging Network Working Group**

Mission Statement

The National Cancer Institute (NCI) Clinical Trials and Translational Research Advisory Committee (CTAC) will convene an *ad hoc* Working Group that will advise on strategies for enhancing the integration of quantitative imaging tools into clinical trials. The Working Group will assess the current status, identify barriers, and recommend strategic approaches for integration of quantitative imaging tools into clinical trials.

Working Group membership will include select CTAC members, as well as individuals from the scientific community with the appropriate expertise.

The Working Group will advise the Clinical Trials and Translational Research Advisory Committee and the NCI Director.
