

NCI Clinical Trials and Translational Research Advisory Committee
***Ad hoc* Working Group on Radiation Oncology**

Mission Statement

The National Cancer Institute (NCI) Clinical Trials and Translational Research Advisory Committee (CTAC) *ad hoc* Translational Research Strategy Subcommittee (TRSS) will convene an *ad hoc* Working Group on Radiation Oncology to survey the scientific horizons broadly to:

1. Identify radiation oncology translational research knowledge gaps.
2. Help identify the most provocative and impactful radiation oncology translational research questions to advance cancer treatment.
3. Examine and identify the most important opportunities for application of new technologies to radiation oncology translational research.

Working Group membership will include select CTAC, National Cancer Advisory Board (NCAB), and NCI Board of Scientific Advisors (BSA) members, as well as individuals with expertise in clinical and basic research, patient care, advocacy, and others with expertise in radiation oncology.

The Working Group will advise the TRSS, CTAC, NCAB, BSA, and the NCI Director.
