Congress has enacted one or more continuing resolutions in all but three of the last 46 fiscal years

PRESENTATION CENTER 9/12/22

- Each year, Congress must approve spending bills to fund the government for the next 12 months
- If spending bills are not passed by October 1 (the beginning of the fiscal year), then the government will face a shutdown
- Continuing appropriations acts, or continuing resolutions (CRs), are used as a stop-gap to provide temporary funding for a specific period of time in the event that regular appropriations acts are not passed by October 1
- CRs cannot be used for “new starts” and provide a funding rate, not a set amount. May include anomalies that adjust the duration, amount, or purpose for which funds can be used.
