- Report draft in progress
- Release anticipated in January 2011

2010-2011 Meeting Series

***The Future of Cancer
Research:
Accelerating Scientific
Innovation***

2010-2011 Meeting Series

- Inspired by the upcoming 40th anniversary of the 1971 National Cancer Act.
- Will attempt to better define the role of various stakeholders in the National Cancer Program (NCP).
- Will consider the best direction for the future of cancer research and the NCP.
- Will consider how the cancer community can utilize a broad array of scientific, computational, and emerging disciplines to accelerate progress of the NCP.

2010-2011 Series Information

- Meeting information
 - Information flyer posted on PCP website:
(<http://deainfo.nci.nih.gov/advisory/pcp/At-a-Glance10-11.pdf>)
- Dates and locations
 - September 22, 2010- Boston, MA
 - October 26, 2010- Philadelphia, PA
 - December 14, 2010- Bethesda, MD
 - February 1, 2011- Atlanta, GA

Boston Meeting

- Confirmed speakers from across federal agencies, public and private sectors, and non-profit and academic organizations.
- The Panel will hear how these different organizations define the NCP and their role and responsibilities within the NCP.
- Two moderated discussions will allow for dialogue between participants and the public on the future of the NCP.

Subsequent Meetings: Questions for Exploration

- What technologies not currently contemplated for use in cancer research might have application to research on cancer prevention, causation, and care and how can they best be utilized?
- What new collaborations are necessary to apply such technologies to cancer research and how can they best be developed?
- What new medical, ethical, and legal issues will emerge as we progress into a new era of science?
- What barriers (e.g., funding, workforce/training issues) must be overcome to advance to a new era of cancer research and how can they be surmounted?
