## PRESIDENT'S CANCER PANEL

Tuesday, October 21, 2008  
Indianapolis, Indiana  
Omni Severin Hotel

The focus of this meeting will be:

- Effects of agricultural chemicals on the health of farmers, farm workers, and others in the agricultural community
- Process by which pesticides are tested for toxicity and how these chemicals are regulated
- How agricultural and other chemicals affect the water sources and foods ultimately consumed by people
- The links between cancer and soil, water, and food contamination
